CIO Advisory – Digital Transformation – Strategic Technology Consulting

Mr. Taffet has over 30 years of technology, business, industry, and operational systems experience. He works with the executive team to provide strategic direction on scalability, digital transformation, technology, and security. He also works with key emerging technologies such as blockchain, and deep learning. Greg has a diverse background that provides a big picture perspective to drive growth, as well as real-life experience to facilitate day-to-day implementation. He is successful in building IT teams and developing creative technical solutions to business challenges. Highly effective in:

- Strategic Planning & Management
- Managing Start-Up & Growth Companies
- Forecasting, Budgeting & Cost Control
- Business Analytics & Data Warehouses
- Regulatory Compliance, Data Governance, & Quality Assurance
- IT Security & Privacy
- IT Operations & Infrastructure, Dev-Ops
- Cloud & Big Data Solutions
- Organization, Staff Development & Team Building
- Solutions Development
- Mergers & Acquisitions
- Agile Methods, Quality & Productivity Improvements
- CRM, ERP, Risk Management Systems Implementations
- Systems Integration, Disaster Recovery Strategies & Implementation
- Vendor & Outsourced Services Partnerships
- Call Center & Data Center Design

HIGHLIGHTED CAREER ACHIEVEMENTS

- Shepherded client through multiple years of double-digit growth. Oversaw the management and development of all business and information technology. Responsible for the technology transformation that matched the company's growth as it has doubled in size each year for six years.
- Transformed multiple clients' business strategies through technology, improved processes, and procedures to plan for growth and change to stay in front of the competition. Provided strategic technology consulting across diverse platforms.
- Received the 2012 Universal Access Award in the individual category from the South Florida Digital Alliance for his long list of accomplishments that have increased access to information and technology thereby positively impacting the lives of many in several communities.
